THE XT 2 GROUPS

CREATE YOUR UNIQUE VISION OF COFFEE PERSONALIZE & CREATE

OVERVIEW

XT, personalize your recipe and create your unique vision of coffee with the new XT. Strength, consistency and creativity all wrapped in technology. Discover our new extreme professional coffee machine.

FLOW PROFILING

Each independent group has a new flow control. The barrista can customize coffee and obtain the desired recipe, by regulating the flow profile for each group thanks to a manual regulation. XTreme precision in flow, endless possibilities in extraction.

PURE INNOVATION

The new XT, personalizes your recipe and create your unique vision of coffee. Strength, consistency and creativity all wrapped in technology. That's what makes her stand out.

TEMPERATURE CONTROL

Precise control of the temperature in every single group. Double the control, double the precision. The flow controller and the probe can manage your temperature up to 0.1°C. Play with temperature and get the best out of your coffee.

WEIGHT SYSTEM

XTreme accuracy in the weighing system, a real time weight control during the coffee extraction, and the end result in the cup. The XT gives you a drop by drop control to create your perfect shot.
