HOT- COLD COLD COFFEE TVT BREWING SYSTEM

Newco introduces a Hot-Cold brewing system and dispenser for brewing and preparation of high volume "Fresh Brew Cold Coffee". This system allows for quick and efficient preparation for your cold coffee requests. The equipment allows for programmable design and volume depending on the demand request of your customers.

25.5625"H x 11.75"W x 22.5"D

21.5"H x 8"W x 16"D

Portable dispenser and stand holds up to 3 Gallons of Fresh Brew Cold Coffee.
(36, 12ounce cups)

Dispenser is designed out of clear material including a removable chill box for chilling and maintaining coffee temperature for cold coffee.

ICE CHILL BOX

Easy to use, simply fill the chill box in or out of the dispenser by pouring ice in the top of the container.

The ice does not mix with the coffee, but provides a method to chill and serve cold coffee.

Fresh Brew your favorite coffee and cool it down quickly! Place the portable dispenser on the stand and serve.

One brewer for your HOT and COLD coffee demands.
