

max

EASY Automatic detection of single and double dose. Grind adjustment with minimum variation of 0.01 mm in burr pitch.

USER-FRIENDLY The encoder handgrips provide effective grinding time adjustment and complete control over coffee.

PERFORMANCE The 65 mm flat burrs provide an extremely precise cut. The grinder can be used in Competition or Programmed mode.

COMPACT Outstanding performance in a small space: 160W x 510H x 250D.

CUSTOM Customize your Max: besides its standard Yellow and Blackboard versions, the grinder can come in a wide range of colours and materials.
