

MILKIT 1 TAP

Milk it is an innovative, original & exciting
patented milk tap solution
designed for the hospitality industry

**The tap is placed alongside the coffee machine*

THE MILKIT PATENTED BAG

We have developed a unique bag that enables an easy and clean connection to the device. The bag, which is available in several sizes, is almost tear proof and makes the milk storage efficient and easy to handle.

THE PRINCIPLE IS SIMPLE:

A large environmentally friendly package is connected to an electric tap that delivers an easy, clean and efficient work environment

TIME SAVER

Milk it saves time preparing each cup of coffee, resulting in the production of more drinks

- The Milk it tap saves up to 4 seconds in the preparation of every coffee cup
- Producing more drinks faster makes shorter lines
- One Milk it bag = 17 one liter bags that needs to be handled

MONEY SAVER

Milk it saves milk wastage in three primary ways:

- 5% by pouring the exact amount of milk needed
- Easy to adjust control buttons offers complete pouring control
 - 5% by enabling boiled milk to be recycled
- Device keeps milk at constant cool temperature so the excess from foaming can be re-boiled and re-used
 - 3% by reducing secondary damages
- Lessen the use of cleaning materials and waste produced

MILKIT 1 TAP

Milk Kit is an innovative, original & exciting
patented milk tap solution
designed for the hospitality industry

ENERGY SAVER

Milk Kit's sustainability strategy promotes economical conservation as well as environmental protection

- Decreases waste production of energy, deterioration and disintegration of equipment
- Reduces production of pollution - more milk on less trucks
 - Milk Kit saves up to 25% percent storage space

TECHNICAL SPECIFICATIONS

- Repeatability and precision cup after cup
- User friendly on a self-serve or full-service station
- Adaptable to any existing fridge
- Easy installation
- Standard 110 volts, 76.8W
- Automatic Daily Cleaning Program
- Save up to 8% in milk by pouring exactly what you need
- Save up to 20% in preparation time and serve more customers hourly
- Environmentally friendly! Cut down up to 85% in your milk packaging material waste
- Save up to 25% in storage space

Milk Kit	Single Milk Tap
Key Feature	One Milk Tap dispenses one milk variety
Voltage	110v
Related Power	76.8W
Frequency	47-63Hz
Flow Rate	3 litres per minute
Height	363.1mm
Width	154mm
Weight	6.8kg
Construction	Stainless Steel
Warranty	12 Months (Parts only)
