

CAFE ESPRESSO

BEAN TO CUP

Introducing our new fully automatic compact Bean To Cup brewer. Coffee House quality drinks with intelligent "one touch" control wrapped in a sleek Italian design. Choose your coffee's perfect grind with 5 available settings, control the amount of espresso, cafe or milk on the fly with the intuitive touch wheel. Cafe Espresso delivers a quality cup of coffee any barista would be proud to serve.

- *Makes 6 different drinks, including layered coffee and milk with only one touch.*
- *The integrated water coffee spout, creates no need to move the cup over to make any drink.*
- *Professional creamer device ensures the soft, smooth, steamed or frothed milk or cream. It is easy to use, remove and clean.*
- *With the adjustment height of coffee spout from 3.15 to 5.5 inches, it houses the smallest espresso cup and a large latte cup.*
