

M80 – Q13 Touch – Touch Plus

PROFESSIONAL COFFEE GRINDERS

THE **SHAPE** OF THE COFFEE POWDER

Quamar continues to push the boundaries and improve its products range.

Design and performance studies have been carried out of the entire range of coffee grinders and the innovative technology of capacitive touchscreen displays is applied to the electronic models.

The new Touch and Touch Plus line is the result of all the technological developments made to best meet the demands of the current market, in which the consumer is very attentive to the design and quality of coffee grinding.

The classic M80 and Q13 models are now approaching On Demand with the contemporary style typical of Quamar, in which dynamism and innovation make the design of professional coffee grinders chameleonic and timeless.

With the new displays, Quamar once again reaffirm its main ones values deeply rooted in the company's craftsmanship.

The concept behind all Quamar coffee grinders is

● the shape of the coffee powder ●
