Touch 03

Unleash the full potential of coffee and tea

Tone's powerful Touch 03 single serve brewer unleashes the full potential of coffee and tea at the touch of a button.

It enables a **100% customization** of coffee and tea beverages through the **intelligent recipe development** by product, by volume, by flow, by strengths and by temperature.

The Touch 03 focuses on **controlled agitation** and **programmable flow rates and pulse patterns** at different stages of brewing: Blooming-, turbulence-, development phase.

As **boiler-less** standalone brewing solution, it channels the water through an highly innovative heating element and forgoes **without heating phase** which gives the barista the possibility to **change recipes immediately** to profile various coffee and tea beverages in different temperatures at any time.

The most revolutionizing brewer on today's market has all the operational capability to take the modern brew bar to the next level.

Product characteristics

- Ability to profile each recipe
- full control on adjustable flow rates and pulse patterns at different stages of brewing: Blooming-, turbulence-, development phase.
- endless recipes for tea and coffee programmable
- up to 2 liter batch brews
- Boilerless brewer - brew at 94Celsius within 2 seconds after switching on
- Built in Wifi-antenna for browser based calibration of recipes **WiFi**
- Adjust recipes anywhere in the world and see all data on the machine in real time
- Colour variations: white

Technical Data

Type	TOUCH 03
Dimensions in mm (w x h x d)	242 x 505 x 320
Weight	26 kg
Power	220 - 240V 50/60Hz
Max. Brewing volume	2 liter
Flow	max. 9g/sec.
Heating (Flow Through Heating System)	3450W
